# 01 Why?

- **Bonding**

- Big project accomplishments, birthdays or any other drink-worthy occasion allows the team to decompress. They will feel that your company has a strong culture and values their employees' needs to have fun and socialize.

- **Increased Productivity**

- Happiness doesn't just come from more money. Allow employees to take their minds off the stressful parts of work and just enjoy themselves with their coworkers. They will return to the office the next day feeling happy and excited to get back to work with their new friends.

## 02 Why?

- **Employee Retention**
